

New app icon & App Store screenshots

A premium direction: a luminous sun inside a UV gauge, and a series of seven editorial posters — one feature, one message, no raw screen captures.

The sun, measured.

A luminous golden disc, lit from within, wrapped in a 270° UV gauge (low → extreme) with a live indicator dot. No face, no rays, no text: an abstract, tactile mark that reads instantly from 1024 px down to 40 px.

YOUR SMART TANNING COACH

Tan better, never burn.

Live UV index, guided sessions and skin analysis — for a golden glow, safely.

Goldn

Hero — Tan better, never burn

Dark background

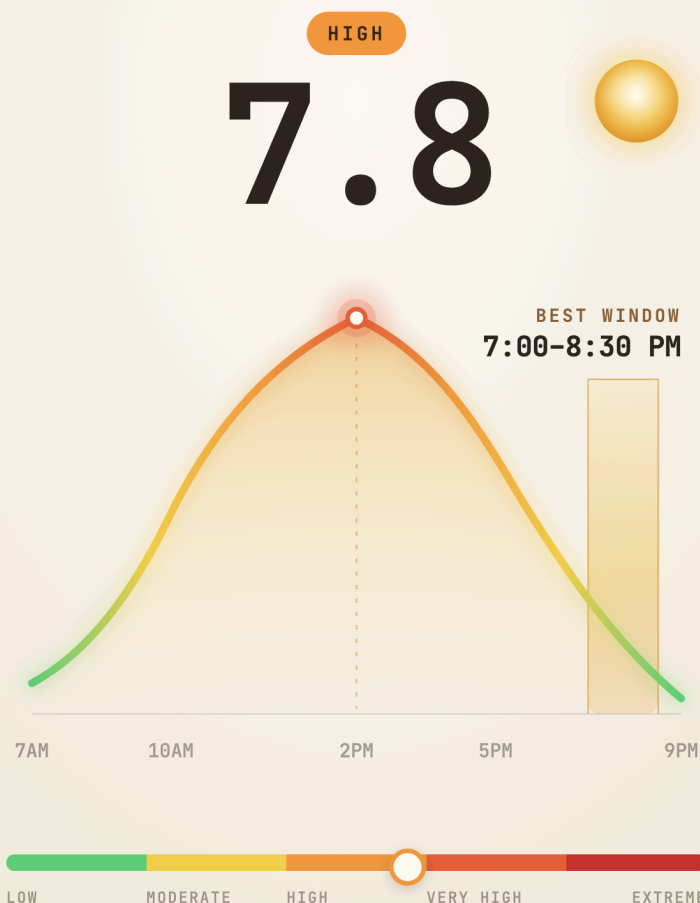

1290 × 2796 px · iPhone 6.7" / 6.9"

1242 × 2688 px version supplied for 6.5".

UV INDEX • LIVE

The sun, hour by hour.

Goldn reads the UV index at your location
and tells you when to tan — and when to
stay in the shade.

for 6.5".

GUIDED SESSION · TIMER

Tan at the right pace.

A timer tuned to your skin type: SPF, front side, flip over, after-sun — Goldn warns you before you burn.

💧 SPF 30 applied ✓

☀️ Front side · 20 min ✓

🔄 Flip over · now NOW

🛡️ After-sun · tonight UP NEXT

SKIN ANALYSIS · ON-DEVICE AI

Know your skin in one selfie.

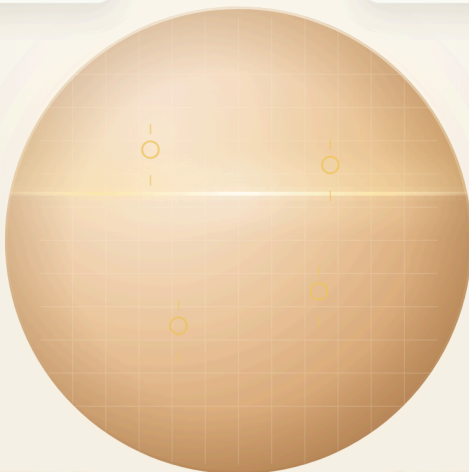

Tan, glow, evenness, redness: four metrics
computed on your iPhone. Your photos never
leave your phone.

Seven posters, one story.

Alternating dark / cream backgrounds create a visual rhythm as users scroll. Each poster explains one feature in a single sentence: smart coach, UV index, guided session, skin analysis, skin type, progress, widgets & alerts.
